

Comparison of monitoring systems functions for dairy cows

e-stado® works for you **whole year round.**

Activity meters work for you 2-3 months per year.

Easy

Ear biosensor E2

Functions:

- Reproduction
- Milk*

Opti

Ear biosensor E3

Functions:

- Reproduction
- Nutrition
- Activity
- Milk*

Pro

Ear biosensor E4

Functions:

- Reproduction
- Nutrition
- Activity
- Ear temperature
- Individual summer heat stress
- Milk*

Calve

Tail biosensor T4

Functions:

- Calving
- Postpartum retention - milk fever
- Milk*

*integration with milking systems

Options for all biosensors:

- Cowshed temperature and humidity (TH2 sensor needed)
- Cowshed photoperiod (TL2 sensor needed)
